CASTELLARO GOLF *Resort*

We await your arrival

Every corner of the Castellaro Golf Resort's 25 green hectares has a surprise just waiting to be sprung. Just 10 minutes from San Remo and 4 km from the sea, the Resort provides sport and accommodation facilities amidst the charming beauty of its grounds where everything has been designed to leave you speechless. Here you'll find all you need to unclog your troubled mind, including sophisticated services to make you feel like you're floating on an oasis between the sky and the ocean.

A passion for service

Four stars do not suffice to describe the countless comforts of a hotel like ours. Alongside our 64 rooms, we also offer 120 holiday apartments with 20 family suites, all with private garden or terrace overlooking the green.

The various types of accommodation have been designed to satisfy your need for privacy and comfort, and range from standard rooms for couples to suites for the entire family as well as one-roomed and two-roomed apartments with cooking facilities, all furnished with taste and style.

Every moment of your holiday will be filled with the courtesy and professionalism of staff who have no other mission than to make your stay an unforgettable one. A shuttle service connects the resort to a sandy beach where umbrellas and chairs are available for hire at special rates.

Golf, Sport and Health

The Golf Club has a 9 hole course open every day all year round thanks to the temperate climate of the Riviera.

Practice areas are available next to the Club. These include the putting green, the vast area given over to the short game (with bunkers) and a large driving range equipped with lighting system to ensure you can practice at any time of the day or night on its 14 tees and target greens at up to 225 metres.

The outdoor pools and the health club with indoor pool, sauna, Turkish baths and gym are available for your relaxation and wellbeing. We also have tennis, five-a-side football, basketball, squash, volleyball, a children's playground, bicycles and an equipped outdoor exercise track.

Dining: our mouth-watering recipes

Pleasure, delicacy, incredible variety and fantasy all come together on the tables of our three restaurants. Alongside the Hotel restaurant, where you can tease your taste buds with local dishes reworked in a modern idiom and delight your eyes with superb views over the sea, we also have a typical restaurant and pizzeria providing all the tradition and quality of Ligurian cuisine. Finally, there's the Club House restaurant, a meeting place set in an elegant but informal environment where you can try our delicious courses or taste some good quality wine while looking out onto the green.

Our chef's secret? Fresh ingredients and intricate menus designed to help you live and taste real emotion.

Successful meetings

What better way to mix business with pleasure than to visit our "Gianni Cozzi" Conference Centre, the most modern of its kind in western Liguria? Equipped with cutting edge technology and multiple conference rooms to meet any need, the Centre offers 8 options and room layouts and can cater for numbers ranging from 10 to up to 1,000 people.

The Centre's numerous display areas, as well as its banquet and reception rooms, combine with the assistance of our qualified and motivated staff to make this the ideal place for your conferences and meetings and for your staff incentive and team building initiatives.

A unique location for unforgettable events.
